A Holmes & Doyle Bibliography
Being A Supplement to The Universal Sherlock Holmes
New Items Added

Below are items recently added to *A Holmes & Doyle Bibliography* (also known as "The Supplement"). Randall Stock—a fellow Sherlockian from California—suggested that this type of listing would be a useful addendum to the *Supplement* as another way to track new additions to the bibliography. I am thankful for his suggestion. New items will be presented in monthly installments. Sometime near the end of each month these entries will be “dumped” into the larger bibliography. As always, I am open to comments and suggestions that will make this research tool more useful.

An essay is presented on the memoir "The Story of a Soul," by Thérèse Martin. It discusses the childhood and monastic experience of Saint Thérèse as she wrote in her memoir and reflects on masochistic pietism. Includes a passing reference to Doyle. "...In his novel, Arthur and George, the contemporary British author, Julian Barnes, situates his hero, Sir Arthur Conan Doyle, as a dutiful Catholic in this transitional epoch. Conan Doyle inquires of his more skeptical friend, George, 'What is the church threatened by?' 'By science,' replies George....".

This article presents tips, techniques and rules of thumb for librarians. Various types of author identification games can be played with a bulletin board set up by student assistants in a highschool library. For example, a picture of Sir Arthur Conan Doyle, accompanied by a map of England can get students started. Each day another clue such as the deerstalker cap or pipe can be added until students guess the author spotlighted.
